EGHMAR JAY C BITOR

Computer Engineering Student | Software Development Intern Candidate

Philippines | sreggg99@gmail.com | GitHub: SrEgggg | LinkedIn

PROFILE

Computer Engineering student building mobile apps, Windows desktop tools, and games. Hands-on project experience with Flutter, Dart, C#, and SQLite. Seeking an internship to contribute to software development and grow through team-based engineering work.

TECHNICAL SKILLS

Software: Flutter, Dart, C#, .NET, Windows Forms, SQLite, Provider, HTML, PHP, Bootstrap
Hardware and games: Arduino, ESP32, KiCad, 8086 Assembly, Godot 4

SELECTED PROJECTS

MoneyFlow | *Flutter, Dart, SQLite* | Project

Built a personal-finance app for manual transaction tracking, budgets, savings goals, and spending summaries, with local SQLite storage and JSON backup and restore.

GitHub only; not released on Google Play, the Apple App Store, or any other app store.

UNODUS | *Flutter, Dart, SQLite, Provider* | Project

Developed a GWA calculator covering subjects, semesters, and academic years, with a what-if grade simulator, academic trends, and CSV export.

GitHub only; not released on Google Play, the Apple App Store, or any other app store.

MelodyToTab | *C#, .NET 10, Windows Forms, NAudio* | Project

Built a Windows tool that converts short solo melodies into editable notes and guitar tabs, with WAV import, playback comparison, and PDF or melody-only MIDI export.

Working MVP; source on GitHub. No GitHub release listed when checked October 14, 2026.

Mananganggal: Before Sunrise | *Godot, HTML5* | Project

Created a Philippine folklore stealth prototype featuring village patrols, a timed hunt, night modifiers, and distraction abilities.

Playable on itch.io; AI-assisted code and artwork disclosed on the project page.

EDUCATION

BS in Computer Engineering | Southern Leyte State University | 2023–2027

Senior High School, HUMS | Sogod National High School | 2021–2023

Secondary | Sogod National High School | 2017–2021

Primary | Sogod Central School | 2011–2017

Primary through senior high school: Zone 1, Sogod, Southern Leyte

AWARDS AND CERTIFICATES

Champion, Hydro Interface: Windows Form C# | April 29, 2026

2nd ICpEP.SE Summit, Institute of Computer Engineers of the Philippines – Student Edition, Southern Leyte State University – Main Campus.
